

TERMS AND CONDITIONS

Michael's Wood is a beautiful established Wood of mature trees. It was planted in the late 19th century and forms part of the privately owned Cholderton Estate, which is fully organic and accredited to the Higher Level Stewardship Scheme. The estate is committed to the preservation of natural habitats and the promotion of biodiversity and Michael's Wood forms part of this commitment. The Wood provides a natural habitat for many species of plants and insects and supports a variety of wildlife.
